CERTIFICATES

Software Fellowship – LOCUS 2026, IOE Pulchowk (9 days): *Participated in an intensive software fellowship program during LOCUS 2026, focusing on practical software development, teamwork, and problem-solving. Engaged in workshops, coding sessions, and project-based learning to strengthen programming and application-building skills.*

C# and .NET Development Fundamentals – Microsoft Learn (Online): Completed beginner-to-intermediate training on C# programming, object-oriented principles, and .NET framework for building web applications.

PROJECTS

Online-Shopping, *.net project*
Developed a full-featured eCommerce web application using Asp.net and Web API.

Sniper game
Developed a browser-based Sniper Game using HTML, CSS, and JavaScript, featuring target spawning, scoring system, and interactive gameplay.

INTERESTS

.NET Development — Experienced in building small-scale applications using C# and ASP.NET Core. Familiar with MVC pattern, Entity Framework, and SQL Server., **Web Application Development —** Interested in designing and developing web apps with ASP.NET Core, HTML, CSS, and JavaScript. Created a CRUD application as a personal project., **Cloud & Deployment —** Exploring deployment of .NET applications on Azure. Completed a small project integrating .NET APIs with Azure SQL Database.

COURSES

Leadership,basics of internet troubleshootinng and web design, *Novel* 07/2025 – Present
kathmandu, samakhushi

- Learned fundamentals of teamwork, communication, and decision-making
- Gained practical skills in diagnosing and resolving network connectivity issues.
- Studied HTML, CSS, and basic design principles for creating responsive websites.
